

LEARNING RESOURCES CENTERS

Each campus houses a library and media resources in a Learning Resources Center (LRC). A separate slide and print library is located at the Visual Arts Center.

Resources

The Learning Resources Centers contain research materials in both print and electronic format to support the courses, curricula, and mission of the college. Library materials include books, newspapers, magazines, journals and an extensive collection of indexes, abstracts and full text databases. Materials in Media Resources include videotapes, audiotapes, films, cd-roms, computer files, and other audiovisual materials. In addition, faculty members may place materials on reserve in the Library or Media Resources for their students' use. Library and Media Resources staff members are available to help you take full advantage of the available resources. The Learning Resources Centers maintain a web site that provides access to the LRC catalog, the electronic research resources, and to many of the services the LRC provides.

Use

Students must have a valid Tidewater Community College (TCC) identification card in order to check out library materials for home use or to access materials in restricted library locations. Residents of the community must obtain a TCC Community Patron library card for limited borrowing privileges. Community patrons may obtain a TCC library card at any Circulation Desk by showing a valid photo I.D. and proof of a current local address. The normal loan period for library print materials is four weeks. The normal loan period for audiovisual materials is one week. Materials that have been placed on reserve, however, may have a shorter loan period. Items may be renewed once in person, by telephone, or through "My Account" in the online library catalog as long as they are not overdue or requested by someone else. Borrowers are personally responsible for the safety, proper use, and timely return of the library materials that they have checked out. If materials are not returned within 14 days of the due date, the college will inform the borrower of the replacement charge for the unreturned materials and will block all library borrowing privileges. The replacement charge for materials is based on the average academic book pricing as listed in the Bowker Annual of Library and Book Trade Information. After 45 days from the original return due date, a financial obligation is established and return of the material will not result in refund of any payment or cancellation of the existing debt.
